JUMPED WITH CHILD IN ARMS

Trolley Fireworks Cause Injury of Woman Who Says She Took Employee's Advice.

Acting, she says, on the advice of a uniformed transit company employee, Mrs. Beale Casey of Des Moines, Ia., jumped from a Jefferson avenue car which was beyond the control of the motorman, and 9-year-old Mary Carney of 2302 Erie avenue in her arms, and was seriously injured. As she fell she threw the child from her, and the girl escaped injury. Pauline Carney, aged 4, the other member of the party, was carried for by the transit company employee, and was not hurt.

Mrs. Casey, who is the guest of the Carney family, was taken to their home after the accident and is suffering from three fractured ribs, severe bruises and internal injuries.

The break chain caused the first trouble, and opposite 134 South Jefferson avenue, the controller burned out, frightening Mrs. Casey.

WANTED HIS NINETY CENTS.

Isaac Beerman Did Not Get It for the Asking and Went to Law.

Isaac Beerman, an old peddler with bent form and long gray beard, a rude replica of Shylock, relentlessly claimed his bond of 90 cents against Henry Smith before the bar of Judge Kiebler's police court Monday morning.

Beerman had sold articles to Smith, who lived at 713 Pennsylvania avenue for a year or so. One June 18 the peddler called at Smith's home and demanded payment of 90 cents owing him from Mrs. Smith.

The Smiths were moving to another house and Beerman, thinking that they were about to leave without paying him, became abusive.

Mr. Smith set the peddler's pack out in the yard and the law followed, attacking Smith with his cane.

Smith defended himself and the peddler called for judgment against Smith, but Judge Kiebler dismissed the case.

POST-DISPATCH JULY RECORD OF FINANCIAL AND MARKETS

First Prices Showed Fractional Advances in the Leading Stocks.

LONDON SLIGHTLY LOWER

Rumors are Afloat That Reading's May Report Will Show an Increase of \$600,000.

Special to the Post-Dispatch. NEW YORK, June 22.—The opening this morning was fairly active, generally irregular, with the leaders a fraction advanced. London early came lower, but firmed up nearly about our opening time.

The Sunday financial articles had little importance and no features. They were mostly a rehash of old happenings, with decided uncertainty as to the future. Officials of the United States corporation report that they have all the orders on hand which they can fill for some time. They insist that recent reports of unsatisfactory conditions in the iron market are entirely unfounded.

The anthracite coal dealers say that they are having trouble in filling their orders. All the coal roads are finding it difficult to get coal enough. Rumors concerning gains in Reading earnings for May are that they will exceed \$600,000. Should this prove true it will be a great measure account for the decided strength in Readings of late.

There was no better feeling over the bank statement after Sunday's reflection, though some thought that the subscription to the new Pennsylvania issue was the cause of some of the changes and that the money soon return.

Chauncey Dewey is out with a very bullish interview in the London paper. The view being cabled from London. Mr. Dewey's interviews are usually of a rosy tint, and when they are concerning business conditions, so it will have little effect on this side.

Rumors of a 5 per cent dividend rate on smaller common are afloat. The company's operation of late are said to have been very profitable.

The market prices and changes were as follows: Copper, 53 1/2; Advance, 53 1/2; Atchison, 6 1/2; Advance, 6 1/2; Rock Island, 2 1/2; Advance, 2 1/2; Missouri Pacific, 10 1/2; Advance, 10 1/2; Reading, 4 1/2; Advance, 4 1/2; St. Paul, 15 1/2; Advance, 15 1/2; Southern Pacific, 4 1/2; Advance, 4 1/2; Union Pacific, 10 1/2; Advance, 10 1/2; Wabash, 1 1/2; Advance, 1 1/2.

After the first hour prices began to sag on the unusual dullness which prevailed. Metropolitan was very weak, selling off from an opening at 124 1/2 to 124. Brooklyn was also lower, the reports being out that the coming report of the new steel company was not followed by the much expected announcement of other engagements which would have been anticipated. The announcement of the appointment of N. D. Ream as a member of the executive committee was looked on with favor as his connection with the company in such a capacity is expected to bring out earning powers to an extent which has not yet been reached.

The banks continue to gain from the treasury, the operations since Friday showing that they are in a good position. The engagement of \$350,000 in gold for export on the account of Kidder, Peabody & Co. of Boston was soon followed by the announcement of other engagements which would have been anticipated. The announcement of the appointment of N. D. Ream as a member of the executive committee was looked on with favor as his connection with the company in such a capacity is expected to bring out earning powers to an extent which has not yet been reached.

Money continued at 2 1/2 during the forenoon. While there seems to be a plentiful supply of present operators beginning to wonder what will be the rates and supply when the crops begin to move.

Transactions Were Light, but Trac-tions Were Well Sustained.

UNITED RYS. SELLS AT \$75.

Central Coal and Coke Was Advanced, a 25 Share Lot Going at \$63.25, With More Wanted.

There was little life in today's market, and it was a long time before any stock sold. What trading which was done came off during the latter part of the session.

Trac-tions were stronger, the United Railways preferred going at \$75 for the majority of the stock, a transit firm and a grain dealer held above previous quotations, but a small lot changing hands. The bonds were materially stronger, but not selling.

Central Coal and Coke was again in demand, and a firm lot of 25 shares at \$63.25, with more wanted at that price. Granite-Bimetals, after a long period of dullness, went up to the extent of sales of 300 shares at 65 cents.

REAL COWS FOR REAL COW "BOYS"

One Hundred Tenement Children
Given Freedom of an 80-Acre
Farm in St. Louis County.

GIRLS WILL BE MILKMAIDS

Two Weeks in Garden and Woods
Will Delight Little Ones, Who
Know Only Brick Walls
and Cobble Pavements.

One hundred children of the tenements went Monday morning to Eureka, Mo., to be little farmers and cowboys, housekeepers and cooks for two whole weeks.

An 80-acre farm with a score of little cottages and as many gardens and patches of farm crops furnishes the scene of their activities.

They will be the guests of the St. Louis Industrial Farm Association, of which A. R. Verrier is secretary.

The children went to Eureka Monday morning. They fled through Union station in a long, shouting line at 8 o'clock to take the train. Secretary Verrier was in charge, assisted by a corps of teachers from the People's Central Mission.

Most of the children are members of the mission Sunday school, and live between Franklin and Case avenues in the downtown district.

"Say, how's dis your business?" shouted one boy when a traveling man asked him where he was going. Then he remembered that he was on good behavior and added: "Dat's all right, mister, we's goin' to do farm ter be cowboys."

As soon as they arrive there they will be divided into details, each detail being assigned certain duties. Their outing is not all given to play. Some of the boys will work in the garden, and others will drive the cows and horses to pasture.

The girls will divide the work of the cottage, sweeping and learning to cook. At the end of two weeks they will return to St. Louis and another hundred from the city will take their place.

Leaves to Be Discussed.

The Mississippi river commission will meet in the Pullman building Wednesday to formulate its annual report to Congress and to devise a plan for the distribution of \$200,000 which has been appropriated by Congress. Delegates from the levee districts south of Cairo will be present. It is probable that the delegates will favor a plan for turning all the levee work over to the federal government.

Services in Sacred Heart Church.

The first services in the Sacred Heart Catholic church were held Sunday morning. The church has been five years in building. Its most important feature is its altar shrine, for this church has been set apart as "the shrine of the Sacred Heart."

Above the regular altar is a smaller one, and at the summit of the altar is the Sacred Heart. Sunday candles were arranged in rows, tapering upward towards the shrine.

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness.

All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this cat liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

ELEVATORS HAD TO RUN THROUGH SPRAY

Passengers in Chemical Building Lifts
Exposed to Fury of Storm
and Soaked.

WALL OF BUILDING IS DOWN.

Construction of New Wing Necessitates Leaving Shafts Exposed and Results in Great Discomfort to the Passengers.

How would you like to be hoisted 250 feet in an open cage with a shower-bath spraying on you all the way up and all your clothes on?

That is what men and women doing business in the Chemical building underwent Monday morning for a quarter of an hour during the heavy rainfall. Finally the elevators were stopped altogether, and those who had not patience to wait for the downpour to cease climbed the stairs to their offices.

There are two elevator shafts in the Chemical building and one side of each shaft is open to the weather because the connection is now being made between the old building and the new wing in course of construction.

From the first floor to the roof passengers in the elevators have an open view over the city, as though the elevator ran up the outside of some high tower.

When the rain started suddenly the water poured down the shaft in torrents, through the open iron work of the elevator cars and gave the passengers a ducking. Everybody shouted his own floor number at once and yelled at the floor boy to get there quick, so that they might get in out of the wet.

It was like shooting up the face of Niagara Falls in a basket with spray splashing all about. The elevators made rush trips to get the passengers up before they got soaked through.

Everyone in the cars but the elevator boy, who had to stand at his lever despite the tempest, began to raise umbrellas. Others held raincoats over their heads and crowded to the unexposed side of the car.

For a short time the elevators were stopped. But the cars had to run all morning in a dripping condition, and the boys had no time to dry out before noon.

The engineer of the building said that the wall of the shaft had been torn down for the iron framework of the new skyscraper has been intact all the time, and a partition was to have been built and the shaft protected. Rain poured down the shaft.

Tarpaulins were hung up as soon as possible, but they afforded little protection. It was impossible the workmen could close up the shaft while the new iron beams were being laid in place.

The damage done to the building by water amounts to about \$30.

SUMMER GARDENERS HAD PLENTY TO SEE YESTERDAY

Summer gardening was the popular pastime yesterday.

It was an ideal day for the summer gardener and both those who garden for profit and those who garden for pleasure made the most of it. To be sure there was a bit of a shower in the evening, but gardening would be dusty work were it not for the irrigating—both within and without.

When the rain came up just about the time that the various entertainments in the theaters and pavilions were ready to begin it simply drove the pleasure-seekers under cover and the gloom without only made it the brighter within.

The possibilities of the big pavilion at Delmar Garden were well demonstrated last evening when the rain came up and drove hundreds of visitors from the midway and open air attractions into the big auditorium. The box office slip showed a total of over 2000 in the pavilion and there was still room for a few hundred more. It was one of the largest audiences the garden ever had when there was no special occasion.

Last night's offering was "Barbara Fidgety," a broad burlesque upon Julia Marlowe's well-known "Barbara Frichtie." The travesty follows very closely the general outline of the play and the scenes are almost exact reproductions of the Marlowe settings.

But the entertainment is not all burlesque. There are brief bits of music and musical comedy situations that are decidedly pleasing and furnish some pretty stage pictures. The chorus girls in their federal and Confederate uniforms, grouped beneath the Union and Confederate flags, form the prettiest of these. They were all greeted with a warm and hearty applause.

Their opening work of the evening, which seemed thoroughly well pleased with the whole show. It was decidedly Weberfeldian and certainly must be viewed solely from this standpoint.

Several members of the company did very clever work. Miss Barnes, who plays the very burlesque role of Barbara, showed a fine sense of humor and a considerable ability. Any actress that can speak the lines she has to and still show any sense of humor is a rare find in the theater. Miss Barnes is a good example of this. She is all right in her own way and anyone who enjoys burlesque will like her performance.

A matinee was given yesterday afternoon at the Delmar Garden. In place of the band concert as heretofore, all the band concerts will hereafter be out of doors and will be free.

Elida Fay, Mme. Adelaide Herrman and Unthan, the armless artist, present three acts at Forest Park Sunday. They are different as can be, and yet all three of equal magnitude. Miss Fay's burlesquing, Mme. Herrman's "suspension" trick and Unthan's wonderful method of using his arms in the place of his hands are not, are attractions not often found on any stage, save that of the metropolis.

The other four acts presented by first-rate artists, all of whom are at the Forest Park Sunday. They are different as can be, and yet all three of equal magnitude. Miss Fay's burlesquing, Mme. Herrman's "suspension" trick and Unthan's wonderful method of using his arms in the place of his hands are not, are attractions not often found on any stage, save that of the metropolis.

AMERICANS LEAD LONDON SMART SET

Their Preponderance Never So Noticeable as Last Week at the Ascot Races.

Special Cable to the Post-Dispatch. (Copyright, 1903, by the Press Publishing Co.) LONDON, June 22.—The preponderance of Americans in the London "smart set" was never so pronounced as it was at this year's Ascot race meeting.

Fully two-thirds of the beautiful houses situated near the course were rented by the American circle, which grows remarkably with each succeeding season. There were as many pretty American women as English ones in the royal inclosure on Tuesday.

Mrs. Adair's party drove over early. It included Lady Barrymore, her daughter, Nellie Post, Craig Wadsworth and Pauline Astor.

The Duchess of Manchester had two drags full of friends staying at her pretty house in Maidenhead, including Lady Essex and Lady Curzon.

Mr. and Mrs. Foxhall Keene were much to the fore with some newly arrived friends.

James Henry Smith had a huge party with Mrs. Rindelaender Stewart and Mr. and Mrs. Anthony Drexel.

Princess Hatfield was very conspicuous at the races every day. So were E. Harris Power and his beautiful wife who came from Paris with Mr. Arthur Paget, with whom they stayed until last week.

Such a number of great beauties, and Mrs. Averey.

Mrs. Chauncey of Louisville had her niece and her sister, Lady Newburgh at the house she shares with Lady Huntington and Lord and Lady Darnley.

The house was great fun with numerous friends of the triple tenants. The house is said that he means to give it to his pretty daughter as a wedding present when she marries Count Zerneau next month.

Half a million dollars worth of frocks were stolen by the sudden rainstorm at the races Wednesday.

The week has been "perfectly calamitous" in England owing to the rain and the cold, for both social and business purposes. No one remembers such unseasonable weather, and there is no prospect of its improving.

The west end fashionable trade has been brought to a standstill, and every industry, depending upon the London season, which now is supposed to be at its height, is almost ruined. This is the fourth bad season in succession and it threatens to be the worst of the series.

LOVERS SEEK DEATH TOGETHER

Man Is Dead and Girl Is Dying Through Drinking Carbolic Acid as Result of Disappointment.

SCRANTON, Pa., June 2.—A pair of young lovers, Ernest Schmie and Miss Jennie Brennan, both of Greenwood, were the participants in a double tragedy last night which a girl's death and a boy's death, and which will probably also prove fatal in the case of the girl.

The two had loved each other devotedly for several months, but another woman from Schmie's old home intervened a week ago and sought to hold him to an alleged engagement to marry her. This led the pair to seek relief in death and they apparently drank tonight a glass of carbolic acid.

Miss Brennan purchased a bottle of carbolic acid yesterday morning and, shortly afterwards, both started for a walk. They went to a secluded spot in the midst of a forest and spent the entire afternoon sitting side by side on a rock. The evening came on they drank portions of the acid. They were found lying side by side.
